

BAR-NONE, ISKY Makes THE WORLD'S BEST Racing Valve Springs

ABSOLUTE MAXIMUM ENDURANCE™

• **BENCHMARK EXCELLENCE:** Ten years after their introduction, ISKY Tool Room™ Valve Springs remain the ONLY racing valve springs test-guaranteed! Spintron test-proven over 1000 racing miles in your choice of 3 endurance grades, we test every part number of every batch, every time - no exceptions!

• **BEWARE OF FAKE TESTS & PRETENDERS:** Our fast talking competitors merely pretend to test their springs. Sorry Guys - your fake "cycle testing" scheme (compressed & released at 40 rpm on equipment suitable for garage door springs) won't cut it in the real world! Two actually bend the truth further by pretending their springs are made in the U.S.A. Brand "M" has for years had springs made in South America. Brand "C" has recently shifted production to Mexico to save \$\$\$. Shame on them! Sorting and packing don't qualify as made in the U.S.A. - Buyer Beware!

• **PROUDLY MADE IN THE U.S.A. EXCLUSIVELY FOR ISKY BY PSI:** ToolRoom™ Valve Springs are 100% designed, tested and manufactured in the U.S.A.. Precision wound hands-on by master craftsmen, from U.S. made "super-clean" premium wire, our exclusive trade secret endurance processing ensures their quality and dependability repeat, time after time!

• **FULL SPECTRUM DAMPENING™:** "Gold Stripe" ToolRoom™, Valve Springs have a distinct advantage over the competition - the centrifugal dampening advantage™! Their finely tuned CAD based design suppresses resonant vibration so your engine's valves hum along smoothly over the broadest possible operating range, something damperless springs can never do - an ISKY Tool Room valve spring exclusive!

• **THE BOTTOM LINE:** The choice is clear. If you want made in the U.S.A. design, precision quality and batch after batch repeatability, only ISKY racks a perfect score! Here's how the competition measures up:

ToolRoom™ Valve Springs are available in (3) Endurance Levels:
ToolRoom™ Spintron Test Proven 1024 Miles 5800-8600 RPM. (No Failures/Near Zero Load Loss.
ToolRoomRad™ Spintron Test II - <u>Sustained Red Line Protection!</u> Test Proven 1024 Miles 5800-8800 RPM: (Race ending abuse continuously revisited).
SuperRad™ Spintron Test III - <u>Marathon Grade!</u> Test Proven 1024 Miles 5800-8900 RPM - Then Full Throttle @ 9000 RPM for 26 Consecutive Miles.

VALVE SPRING SCORE CARD							
BRAND	U.S. DESIGN	U.S. WIRE	U.S. MADE	CENT. DAMP.	BATCH TESTED	SCORE	RESULT
ISKY	Yes	Yes	Yes	Yes	Yes	5	Pass!
Brand "M"	No	No	No	No	No	0	Fail! ★
Brand "C"	Yes	No	No	No	No	1	Fail! ★
Brand "L"	Yes	Yes	No	No	No	2	Fail! ★
★ (Based on minimally acceptable standards, a passing score is 4)							

Run The **ONLY** Racing Valve Springs That Consistently Deliver Absolute Maximum Endurance™. ToolRoom™, ToolRoomRad™ & SuperRad™ Valve Springs from ISKY. The Undisputed Standards of excellence in endurance racing today!
